SATISFACTION GUARANTEE

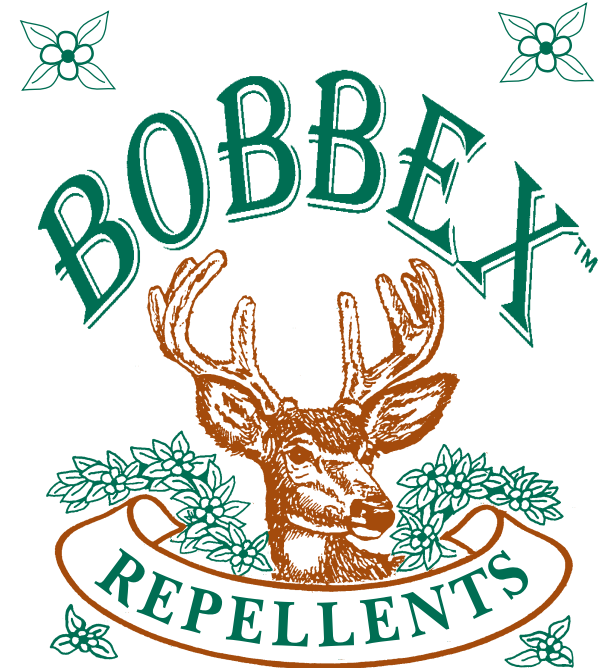

BOBBEX guarantees all of its products. If you are not satisfied with this product, BOBBEX, Inc. will refund the suggested retail price or replace with equal item with proof of purchase. BOBBEX will not be responsible for any type of damage or be obligated for any type of compensation.

BOBBEX, INC. COMMITMENT

Our company was organized in 1989 to aid homeowners plagued by deer predation. We are successful in our mission, and have grown to become a nationally recognized name in animal repellency.

Our years of experience, focus, and expertise in repelling deer have enabled us to provide the best advice and products on the market. We welcome questions regarding deer or small herbivore problems you, your neighbors and friends may be experiencing. We will provide honest answers to your inquiries without sales pressure, obligation, exaggeration or hype.

BOBBEX products intended purpose is to protect outdoor plants only.

**“Plants Thrive & Survive”
with... BOBBEX™**

BOBBEX Deer Repellent is an original, unique spray made from all natural and recycled ingredients. The continued use of BOBBEX products will reduce deer damage to expensive plantings by:

- Disrupting the browsing habits of deer, elk, moose and other herbivores
- Repelling with BOBBEX'S taste and odors

BOBBEX'S proven formula adds greater odor intensity to discourage the deer. Its POWER SCENT will last through multiple rain storms and hosing.

Other available products:

- BOBBEX-G for Geese
- BOBBEX-H to prevent cribbing by Horses

For additional information and where to buy these products, visit www.bobbex.com.

Also featuring

Use BOBBEX-R to deter:
**Rabbits, Groundhogs, Squirrels,
 Chipmunks & Voles**

Spraying Bobbex-R around the base of the plant is beneficial for repelling voles. Spray small holes and tunnels using the dilution recommended on the bottle label.

Bobbex Bulb Dip Program

Use Bobbex-R to discourage underground bulb damage from deer and other herbivores.

Before planting: Begin by removing all loose and dried plant tissue around the bulbs.

Dip bulbs in straight concentrated BOBBEX (right out of the bottle). Allow bulbs to soak for 3 to 5 min.

Remove bulbs from BOBBEX concentrate and allow them to completely air dry.

- WILL NOT WASH OFF IN RAIN
- Used on ornamentals including Heirloom Roses
- Reduces the need of insecticides, pesticides and fungicides
- Reduces powdery mildew damage
- Decreases Black Spot
- Also repels aphids, mites, leafhoppers, greenflies and sawflies.
- BOBBEX Rose repels deer by taste and odor
- Provides some additional protection from effects of late spring and early frosts by reducing cell damage
- BOBBEX repellents have been sold nationally since 1989

This product is a must for all rose lovers to use in their gardens. BOBBEX ROSE Deer and Insect Repellent is a dual purpose repellent that stops deer from feeding on your roses. The use of BOBBEX ROSE will also reduce the need for insecticides, pesticides and fungicides, creating a healthier environment.
